

THE ATTACHMENT TO YOUR DIMENSIONS

application :

Even in narrow aisles those forks allow the outsourcing of pallets or loads without causing any damage by the pivoting of the forks.

technical characteristics :

-Standard models from 1 to 4 metric tons
(up to – tons possible)

-multiple pivoting angles :

- automatic pivoting stop at $\pm 35^\circ$
- manually pivotable up to $\pm 90^\circ$

-also in combination with fork extensions

Options :

- Ex-proofed
- Antislippage coating
- additional wear zone at forks bending point
- reinforced pivoting mechanism
(more resistant at pivoting)
